“ Words cannot fully express how saddened I was to hear of the passing of Mr. James. Thank you for generously sharing him and his time with us. It has truly been such a pleasure getting to know him and working with him for the past few years. He was always so genuine and encouraging as he shared his experiences with us about his journey with kidney disease. He had such a talent as he was able to engage patients and staff as he shared his experiences. It was such a marvel to witness! During our numerous conversations in person and on telephone he always was able to inspire me to continue my mission to support individuals in my communities to live their very best lives and to explore their own treatment choices to live healthier lives. It has been inspiring to witness him encouraging others through their journey with kidney disease. He wanted them to feel supported, to explore their very best treatment fit and the importance of getting enough dialysis to minimize their risks of developing health complications. I felt privileged that he had enough confidence in my experiences as a Registered Nurse to share words of encouragement as he experienced his recent health challenges. I hope that it was a source of comfort to him and was able to decrease his level of anxiety as he was trying to make the best health decisions for himself. My prayer is that he was aware of how much he was respected and how important he was to us in our journey to support others with kidney disease. He has made such a difference in so many lives! He fought a great fight! He overcame challenges! His job is now done! May the work he has done continue to speak for him! I pray that his soul is at peace with God. My prayer for you and your family is that God sustains you all during this difficult time. Please know that his spirit will be with you all! He will genuinely be missed by many!
